

# Write 50 important life goals

On motivational talks and trainings are often asked to write a list of 50 important life goals and desires. It is often possible to hear opinion that 50 goals is a lot.

Accustomed to the idea that the goal in life should be one.

But the presence of only one target requires the global. The global objective can be achieved in a lifetime, but that there must be intermediate steps and results that are needed today.

In addition to the "purpose", which serves as the ideological Foundation of the global life goals, a person has many immediate desires.

Basic desires can be grouped into 50 important life goals or 100. found this figure.

A lot or a little? Try [custom essay writing service](#) to sit down and quickly write 50 important life goals on a piece of paper. As usual in such cases, there is no need to think and evaluate written before you finish the job completely.

Looking at the result some time later, you can find a lot of interesting things: some of the objectives are repeated under different wording, others – for various expression have the same unmet need.

Among the 50 important life goals will be tracked the trend, which will help to understand the real life aspirations.

Choosing only one goal to make a mistake and fall under the influence of stereotypes. In this case, even achieving the goal, people won't feel satisfaction.

And when there is embodied in the lives of those objectives with the real needs of the individual, the person experiences satisfaction from the process of achieving the goal.
